New York, NY

## SKILLS

- Proficient in Python, R, SQL, and Scala.
- Expertise in machine learning and deep learning algorithms.
- Experience with big data technologies (Hadoop, Spark, Kafka).
- Strong data visualization skills (Tableau, Power BI, Matplotlib, Seaborn).
- Cloud computing expertise (AWS, Azure, GCP).

## EDUCATION

- M.S. in Data Science, Stanford University, 2020
- B.S. in Mathematics, MIT, 2018

## PROFESSIONAL EXPERIENCE

### Data Scientist | XYZ Analytics | 2021 - Present

- Developed predictive models that improved customer retention by 20%.
- Built scalable data pipelines using Spark and Kafka.
- Deployed machine learning models to production using AWS SageMaker.

### Data Analyst | ABC Tech | 2018 - 2021

- Conducted A/B testing to optimize marketing campaigns.
- Created interactive dashboards to track KPIs.
- Provided actionable insights that increased revenue by 15%.

## PROJECTS

- **Fraud Detection System** - Built an ML-based fraud detection model that reduced fraudulent transactions by 35%.
- **Customer Churn Prediction** - Developed a predictive model to identify at-risk customers, improving retention strategies.
- **Automated NLP Sentiment Analysis** - Created an NLP model to analyze customer reviews, enhancing customer satisfaction strategies.

## CERTIFICATIONS

- AWS Certified Machine Learning – Specialty
- Google Data Engineer Certification

## LANGUAGES

- English (Fluent)
- French (Intermediate)
